SERVING OKLAHOMA AND SURROUNDING STATES SINCE 1979

PRIOR TO ARRIVAL

- YOU MUST DISCUSS WITH US, IN ADVANCE OF ARRIVAL, ANY TREATMENTS OR MEDICATIONS (other than parasite preventatives as described below) your dog will require while staying with us.
- Dogs must be tick and flea free, AND on a tick preventative unless your veterinarian specifically suggests otherwise. We are surrounded by woods, and deer (major hosts to ticks) are common.
- Parasite preventatives that come due while your dog is here should be placed in an envelope or baggie with your dog's name and date to be administered.

BRING WITH YOU

- (Or email in advance) a shot record or letter from your veterinarian stating that your dog's vaccinations are current, including a current, veterinarian-administered rabies vaccination. Kennel cough preventative is suggested, if your veterinarian so recommends
- Enough of your dog's food for 3 weeks. We don't want to change your dog's formula. Bring what your dog has been eating. TAPE A NOTE onto the bag which tells us IN 8 oz CUPS how much to feed your dog, each of two feedings per day. *Please note: if your dog eats 3 cups or more per day (1 ½ cups or more twice per day), s/he will require more than one 20-pound bag of food.* We'll send unused food home. Please don't bring bags that weigh over 40 pounds.

OPTIONAL

- Toy(s) and/or chews for inside the kennel.
- Pillow, pad, or quilt for kennel bedding. Note that dogs often destroy their bedding. Your dog will have a cot and a crate without a door on it in the kennel with him/her.
- Treats. We use our own treats during training unless directed not to. If there is something your dog enjoys, send it along and we'll use it as his/her "good-night" snack. Do NOT bring any food, treat or snack your dog has not previously eaten regularly.
